QUT bluebox

QUT has established a new company as a single point of contact for researchers, investors and industry involved in commercialising the University's burgeoning body of intellectual property.

The new company **bluebox**, was formed to identify and evaluate new technologies with commercial potential and then streamline the process of bringing these innovations to market.

Bluebox's role is to manage all facets of the commercialisation process including negotiating with companies, managing QUT's patent portfolio, and facilitating partnerships and contractual arrangements, say its newly appointed general managers Colin Kinner and Paige Maguire.

Mr Kinner and Dr Maguire, who are general managers responsible for physical sciences and life sciences respectively, will become the faces of **bluebox** as they hold seminars throughout QUT to meet research staff and actively seek out and assess

commercial possibilities in the university.

Each has academic credentials and real-world experience in growing technology-based, start-up companies both in Australia and overseas.

Mr Kinner said one of **bluebox's** key aims would be to foster the entrepreneurial spirit at QUT while ensuring sensible commercial arrangements were put in place with outside parties.

'We want to implement a professional approach to all commercial dealings involving QUT's intellectual property, and provide a "one-stop shop" for researchers and industry to centralise and manage all commercial interactions.'

QUT workplace visits program

Organisations are continually confronted with the challenge of developing a more dynamic workforce capability.

In response to this challenge, QUT has initiated the **Workplace Visits Program**, which provides tailor-made presentations to assist employees who are looking to enhance their professional development.

It offers an opportunity to find out specific course information, talk with QUT staff and collect course

publications without having to leave the office.

For further information or to book a QUT workplace visit, contact Vanessa Gunn, Corporate Relations Officer, on phone 07 3138 3918, email workplacevisits@qut.edu.au or complete the workplace visit [online enquiry form](#)
