An important announcement for all members of the Biotech Chapter – you have a new Chair!

Dear Colleague,

At this month's meeting of the Women in Technology Biotech Chapter committee, Dr Paige Maguire was appointed committee Chair. Many of you will know Paige through her involvement to date as Deputy Chair of the committee and as the recently appointed General Manager – Life Sciences for qutbluebox Pty Ltd. Along with the good work Paige has done for the committee to date, she brings a wealth of professional experience in the biotech industry both in Australia and overseas to the position. Paige is looking forward to meeting all members during this year's calendar of events! She is a wonderful candidate and we are lucky to have secured her as Chair – I am sure you will all give her your full support.

There will be a number of other changes to the committee of which we will inform you in the next few weeks. Of course, we are always looking for volunteers to help out so please feel free to contact us if you are willing to lend a hand. I also encourage you all to come along to the [WIT AGM and 10th birthday celebrations](#) this Thursday evening to meet this year's committee.

Attending this event will also provide you with an opportunity to view the new WIT branding which is the culmination of efforts by the WIT board and secretariat to provide a seamless integration of the Biotech and Infotech chapters. With this new branding and new tools to manage your membership and provide you with better access to information we can all look forward to a fresh and functional new approach to interacting with WIT in the future.

I have very much enjoyed my time as inaugural Chair of the Biotech Chapter and thank you all for helping to make the chapter the vibrant entity it is today. I'll be staying on as Deputy-Chair [and](#) our designated nominee to the WIT Board of Directors and will therefore

see you all at events regularly this year.

Thanks and regards

Anne-Marie Birkill
